

MOHAMMED MAJEED KHAN

Hyderabad, Telangana, India | +91 9618822022 | majeedkhan2005.cc@gmail.com | [linkedin.com/in/majeed-khan](https://www.linkedin.com/in/majeed-khan) |

EDUCATION

Mahindra University (MU) Aug 2023 – May 2028
Integrated M.Tech in Computer Science & Engineering Hyderabad, India
Certifications & Standing: IRM Certified (Level 1 Global Enterprise Risk Management, UK) • MU Academic Merit Scholarship

TECHNICAL SKILLS

- **Languages:** Python, C++, Java, TypeScript, JavaScript, SQL, HTML/CSS
- **AI / ML & Frameworks:** Gemini API, Vertex AI, Multimodal RAG, Embeddings (BGE, Text-Embedding-004), FAISS, OpenAI CLIP, Ollama / SLMs, PyTorch, Vector Search, LangChain
- **Cloud & Systems:** Google Cloud Platform (GCP), Docker, Supabase (Postgres RLS), FastAPI, Linux CLI, Git/GitHub, Stripe API, n8n
- **Core Competencies:** Agent-Based Frameworks, LLM Orchestration, Prompt Engineering, Latency Optimization, Vector Databases, Distributed Systems, Data Structures & Algorithms

EXPERIENCE & LEADERSHIP

Google Jul 2025 – Present
Google I/O AI Delegate & Student Ambassador Mountain View, CA / Hybrid

- Represented Indian student developers at Google I/O 2026 at Google HQ, collaborating on next-generation Gemini tooling.
- Delivered hands-on Vertex AI, Gemini API, and Multimodal RAG workshops to **1,000+ developers** across practical AI tracks.

AI Hub – Mahindra University Aug 2025 – Present
Founder & President Hyderabad, India

- Founded and scaled campus AI organization to **100+ active members**; directed flagship hackathon for **1,000+ participants**.
- Led technical roadmapping, LLM architecture discussions, and code reviews for 100+ active student developers across multimodal project tracks.

Aeon Tech Fest – Mahindra University Jan 2025 – Apr 2025
Sponsorship Head Hyderabad, India

- Secured **INR 800K (\$10K USD)** in corporate sponsorships across 10+ enterprise brand partnerships.

ENGINEERING PROJECTS

True North – AI Back-Office for Canadian Brokerages FastAPI, Gemini API, Supabase RLS, Stripe, n8n, Docker

- Engineered an enterprise AI back-office for the **Quebec and Canadian insurance market**, automating bilingual (FR/EN) policy data ingestion, confidence validation, and AMF/Loi 25/PIPEDA compliance.
- Achieved **98.4% extraction accuracy** across bilingual French/English insurance binders with **59/59 passing unit test suites** and zero PII leakage.
- Implemented 5 cloud n8n workflows for automated email intake, policy renewal monitoring, and weekly revenue opportunity tracking.

Indus Valley AI (IVA) – Private Multimodal RAG & Benchmark Python, FastAPI, FAISS, CLIP, Ollama / LLaMA 3.2, Gemini Nano

- Developed a 100% private, locally hosted AI research assistant indexing 1,500+ academic chunks using FAISS vector search, BGE embeddings, and strict 5-part academic answer structuring.
- Integrated an OpenAI CLIP vision pipeline for zero-shot artifact matching and fine-tuned Phi-3 Mini via LoRA, reducing edge inference latency to **<200ms with zero cloud egress cost**.
- Authored a formal LaTeX research paper and built the automated IVA-Q benchmark to evaluate factual grounding and retrieval quality.

AI Research Paper Discovery & Multimodal RAG Engine Python, Vertex AI, Gemini API, Vector Search, Google Cloud

- Architected a multimodal RAG system indexing dense academic PDFs, parsing complex figures and tables to reduce literature search latency by **~80%**.
- Implemented dense semantic retrieval using Vertex AI Vector Search and custom prompt chaining for context-aware academic discovery.

HONORS & RECOGNITION

- **Google I/O 2026 Delegate (Mountain View, CA):** Chosen as 1 of only 9 national delegates (top 0.3% cohort) representing India at Google Global HQ.
- **Executive VP Interview & Google Feature:** Conducted a 1-on-1 interview with **Robby Stein (VP of Product, Google Search)** on Gemini search integration (1 of 2 from India); profiled across **Google Official (42M+)**, **Google for Developers**, and **Google India**.
- **Google Cloud GenAI Exchange: Rank #1 in India** out of 208,000+ developers for Vertex AI & LLM implementation.
